

RANDHIR GUPTA

Cloud Security Engineer

Coimbatore, India | +91 9043645951 | randhir.gupta.0511@gmail.com

PROFESSIONAL SUMMARY

Third-year B.Tech (Computer Science and Business Systems) student with practical knowledge of cloud security, identity and access management (IAM), and network security. Hands-on experience with AWS cloud architecture, security operations, and workflow automation gained through internships and applied projects. Certified in cybersecurity fundamentals, with strong analytical and problem-solving skills applied to securing cloud environments.

CORE SKILLS

Cloud Security & IAM: AWS (IAM, S3, EC2), Identity & Access Management, Security Group Configuration, Vulnerability Assessment, Least-Privilege Access Design

Networking & Security Operations: Network Security, Linux Fundamentals, Security Operations, Wireshark, Nmap

Development & Tools: Python, JavaScript, React, TypeScript, Git, GitHub, ServiceNow Flow Designer

Languages: English (C1), German (B1), Hindi (Fluent), Nepali (Native)

PROFESSIONAL EXPERIENCE

Cloud Computing with AWS Intern

07/2026 – 08/2026

AICTE & MSME-Approved Internship Program

- Configured secure AWS cloud architectures applying IAM least-privilege principles, Amazon S3 bucket policies, and EC2 security group rules.
- Gained hands-on experience in cloud resource management, secure deployment practices, and access control implementation.

ServiceNow Virtual Intern

07/2026 – 08/2026

AICTE & SmartBridge Program

- Engineered automated business workflows using ServiceNow Flow Designer to manage enterprise databases and establish role-based user permissions.
- Applied Service Catalog, Incident Management, and platform automation features through hands-on enterprise projects.

Full Stack Web Development Intern

12/2025 – 01/2026

Coimbatore, India

- Developed responsive web applications using HTML, CSS, JavaScript, and modern front-end frameworks.
- Implemented database integration and optimized application performance and functionality.
- Used Git and GitHub for version control and collaborative project management.

PROJECTS

ENC Cloud Storage — Full-Stack Web Application

- Architected and deployed a secure, responsive cloud file storage application using React, TypeScript, and Tailwind CSS.
- Built end-to-end file management workflows covering upload, cloud retrieval, and automated storage.
- Integrated user authentication and role-based access control to protect sensitive user data from unauthorized access.
- Established a GitHub-based CI/CD-style version control pipeline for reliable production deployment.

EDUCATION

B.Tech, Computer Science and Business Systems (CSBS)

2024 – Present

KPR Institute of Engineering and Technology (KPRIET), Coimbatore — Affiliated with Anna University

- Expected Graduation:** July 2028
- Relevant Coursework:** Computer Science Fundamentals, Cloud Computing, Cybersecurity, Data Structures, Database Management Systems, Business Systems

CERTIFICATIONS

- Junior Cybersecurity Analyst Career Path — Cisco Networking Academy (cybersecurity fundamentals, network security, threat analysis, security operations)
- Python Programming Track Mastery — CodeChef (100% completion: Data Structures, Object-Oriented Programming, computational logic)
- Cybersecurity Analyst Job Simulation — Tata Consultancy Services via Forage (IAM principles, cybersecurity best practices, technical documentation)
